MADE IN ITALY: NORMA UNI 11674

La norma tutela l'acquirente garantendo l'origine italiana e le prestazioni di sicurezza e durata del prodotto, entrambe verificate periodicamente da uno dei più importanti laboratori di prova e certificazione per il legno-arredo in Italia: COSMOB.

MADE IN ITALY: STANDARD UNI 11674

This standard protects purchasers by guaranteeing the Italian origin, safety performance and useful life of products, both periodically verified by one of the leading testing and certification labs for wooden furnishings in Italy: COSMOB.

GREENGUARD

Il Programma di Certificazione GREENGUARD certifica che tutte le strutture dei prodotti a marchio LUBE e CREO sono conformi agli standard più rigorosi in termini di livelli di emissione di Composti Organici Volatili (COV) emessi da mobili, superfici e vernice oltre ad altre sostanze chimiche nocive negli ambienti interni.

GREENGUARD

The GREENGUARD certification programme certifies that all structures of LUBE and CREO products comply with the strictest standards in terms of emissions of volatile organic compounds (VOCs) from furniture, surfaces and coatings, as well as other harmful chemical substances in interior environments.

PANNELLO ECOLOGICO

Le strutture dei mobili LUBE e CREO sono realizzate con pannelli composti da legni riciclati al 100%, certificati dal Consorzio Pannello Ecologico e con materiali a basso impatto ambientale, certificati per la bassa emissione di formaldeide.

ECOLOGICAL PANELS

LUBE and CREO structures are created with panels made from 100% recycled wood, certified by the Eco-Panel Consortium, and from environmentally friendly materials, certified for low formaldehyde emissions.

GRUPPO LUBE ECOLOGIC

Il Gruppo LUBE utilizza per i componenti delle cucine (tutte le strutture, alcune ante e alcuni complementi), materiale conforme al regolamento EPA TSCA TITLE VI, uno dei più severi in merito alle normative di salvaguardia ambientale.

ECOLOGICAL PANELS

The LUBE Group uses for kitchen components (all carcasses, some doors and some accessories), material that complies with the EPA TSCA TITLE VI regulation, one of the strictest regarding environmental protection regulations.

SOSTENIBILITÀ AMBIENTALE

Lube Industries srl è dotata di Sistemi di Gestione per l'Efficienza Ambientale, per la Qualità e per la Salute e la Sicurezza sul Lavoro, in conformità alle norme: UNI EN ISO 14001, UNI EN ISO 9001 e UNI EN ISO 45001.

ENVIRONMENTAL SUSTAINABILITY

Lube Industries S.r.l. implements management systems for environmental efficiency, quality, and occupational health and safety, in conformity to the following standards: UNI EN ISO 14001, UNI EN ISO 9001 and UNI EN ISO 45001.

FSC®

La certificazione FSC® rappresenta il principale meccanismo di garanzia sull'origine del legno o della carta, con questa certificazione Lube Industries ha deciso di rendere noto il suo impegno nei confronti dell'ambiente e si schiera contro il disboscamento incontrollato e il taglio illegale di foreste.

FSC®

FSC® certification is the leading mechanism guaranteeing the origin of wood and paper. With this certification, Lube Industries has decided to demonstrate its commitment to the environment and stand against uncontrolled deforestation and illegal felling.

FOTOVOLTAICO

Energia pulita per prodotti di qualità. Un impianto fotovoltaico, installato nella sede aziendale, copre la superficie di 40.800 mq ed eroga una potenza di 6,2 MWp. L'energia prodotta quotidianamente dai pannelli solari, circa 6000 KWh, è in grado di soddisfare il fabbisogno dei processi produttivi aziendali.

PHOTOVOLTAICS

Clean energy for high-quality products. A photovoltaic plant, installed at the company headquarters, covers an area of 40,800 m2 and has a power output of 6.2 MWp. The energy generated daily by the solar panels, approximately 6,000 KWh, is enough to meet the company's production needs.

COLONNA CON ANTA SAGOMATA "SINUA"

COLUMN WITH "SINUA" SHAPED DOOR

 In presenza di anta sagomata "SINUA", il sistema gola Tipo "L" rimane invariato e segue le stesse regole utilizzate nel NECK con anta con profilo squadrato.
In the presence of a "SINUA" shaped door, the "L" type groove system remains unchanged and follows the same rules used in the NECK with a square profile door.

 In presenza di gola intermedia tipo "D" con due colonne con apertura contrapposta, l'anta sagomata "SINUA" si può utilizzare solo in una delle due colonne. L'altra colonna ad apertura contrapposta deve avere l'anta con profilo squadrato del sistema NECK. Due ante sagomate "SINUA" non possono mai essere affiancate dal lato della sagomatura in quanto condividono la stessa gola verticale.
In the case of an intermediate type "D" finger rail with two opposing opening columns, the "SINUA" shaped door may only be used in one of the two columns. The other opposite-opening column must have the NECK system squared profile door. Two "SINUA" shaped doors can never be placed side by side on the shaping side as they share the same vertical finger rail.

Le cerniere pilastro Blumotion sono di serie nelle basi angolo e nelle colonne angolo. Pillar Blumotion hinges are standard in the corner base units and in the corner columns.

CASSETTI “INTIVO” E CESTONI “ANTARO”

“INTIVO” DRAWERS AND “ANTARO” BASKETS

I sistemi “Intivo” e “Antaro” garantiscono l'estrazione totale dei cassetti e cestoni e sono equipaggiati con fermo di fine corsa e sistema ad incastro per bloccaggio anti-sganciamento. Nei cassetti e cestoni con larghezza fino a 120 cm la portata dinamica è di 50 kg e 30 kg nelle profondità ridotte. Il movimento silenzioso ed ammortizzato è garantito per oltre 100.000 cicli di apertura/chiusura.

“Intivo” and “Antaro” systems ensure full extraction of drawers and baskets and are equipped with end stop and interlocking system for anti-release locking. In drawers and baskets with widths up to 120 cm, the dynamic load capacity is 50 kg and 30 kg in shallow depths. The quiet, damped movement is guaranteed for more than 100,000 opening/closing cycles.
